

**LONG TERM CONTROL
OF WEEDS**

The homeowner was always struggling when it came time to cut the grass on his property because the slope is very steep. After consideration he opted for Typar Biobarrier. The application of the membrane will prevent weeds to grow and spread.

Typar Biobarrier is manufactured by Berry Global and is **guaranteed for 15 years**. This product is unique worldwide.

Rolling out and placing the Biobarrier membrane at the front of the property.

Covering with 3" of mulch.

Also applied at the side of the property.

The homeowner will be planting small trees and shrubs.

For additional information, please visit our web site www.dbbinc.ca where you will find more than 40 different Typar Biobarrier applications.
