BIOBARRIER®

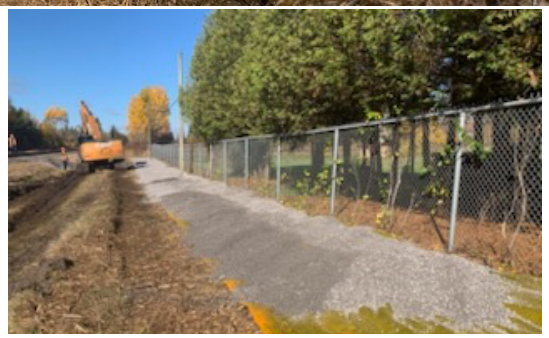

LONG TERM CONTROL OF VEGETATION GROWTH

VIA RAIL – Project 2

Certain sections along railway tracks require regular maintenance to eliminate weed growth. To minimize these operating costs, it was decided to implement the Typar Biobarrier to control vegetation growth. Berry Global, the manufacturer, offers a 15-year performance guarantee on this product. For more information, visit our website www.dbbinc.ca to see over 40 different applications in Canada.
