

TYPAR Geotextile (N° 3601)

The TYPAR geotextile is manufactured by Fiberweb. TYPAR'S superior physical properties are the result of the production process called "continuous filaments" which provides:

- Greater UV resistance
- Greater permittivity
- Greater permeability

Project

Outside Storage for Heavy Equipment

Hydro-Québec

Sept-Îles, QC

July 2011

Delivery and unloading of the Typar Geotextile at the job site.

Unrolling of the Typar Geotextile.

Unloading, spreading and levelling of the crushed stone.

Project Complete!
